

## OBJECTIVE

Motivated and self-taught full-stack web developer with strong knowledge in React.js, Express.js, Node.js, and MongoDB. Passionate about building modern, responsive, and user-friendly web applications. Eager to contribute my skills in both frontend and backend development to a dynamic team, while continuing to grow in advanced technologies like the ones related to DevOps.

## EDUCATION

### Wahat Ezzaitoune 2

2021-2023

Acquired a strong foundation in physics, chemistry, and mathematics. Developed analytical and problem-solving skills through scientific studies and project-based learning.

### Jah Info Plus – Self Education

2023-Now

#### **Currently Enrolled | [Jah Info Plus], Marrakech**

Focused on modern business practices, accounting principles, financial management, and commercial operations. Building a solid understanding of administrative tools and real-world economic strategies.

#### **Self-Taught Web Developer**

Gained extensive hands-on experience in frontend and backend development using JavaScript, React.js, Node.js, MongoDB, Python, Git, and version control tools. Built real-world projects such as e-commerce platforms, habit tracking apps, and car rental systems.

## PROJECTS

### Classified Ads Board for Moroccan handicrafts

Built a web platform where users can create, update, and delete classified ads for Moroccan handicrafts. The app helps artisans and buyers connect through a simple and user-friendly interface.

**Technologies:** React, Express.js, MySQL

### Habit Tracker App

Designed a habit-tracking web app that allows users to create and manage personal habits, set frequency (weekly/monthly), and view progress in a calendar view. Data is stored in local storage, and the app includes a clean Bootstrap-based UI with orange and white theme.

**Technologies:** React, Bootstrap, Local Storage

## SKILLS

- Project Planning
- Database Management
- API Integration
- Git, GitHub, VS Code, Postman
- Self-Learning
- Attention to detail
